

TenZen
ITMT

TenZen

It is a application with which it is convenient to keep track of personal finances and plan your personal budget.

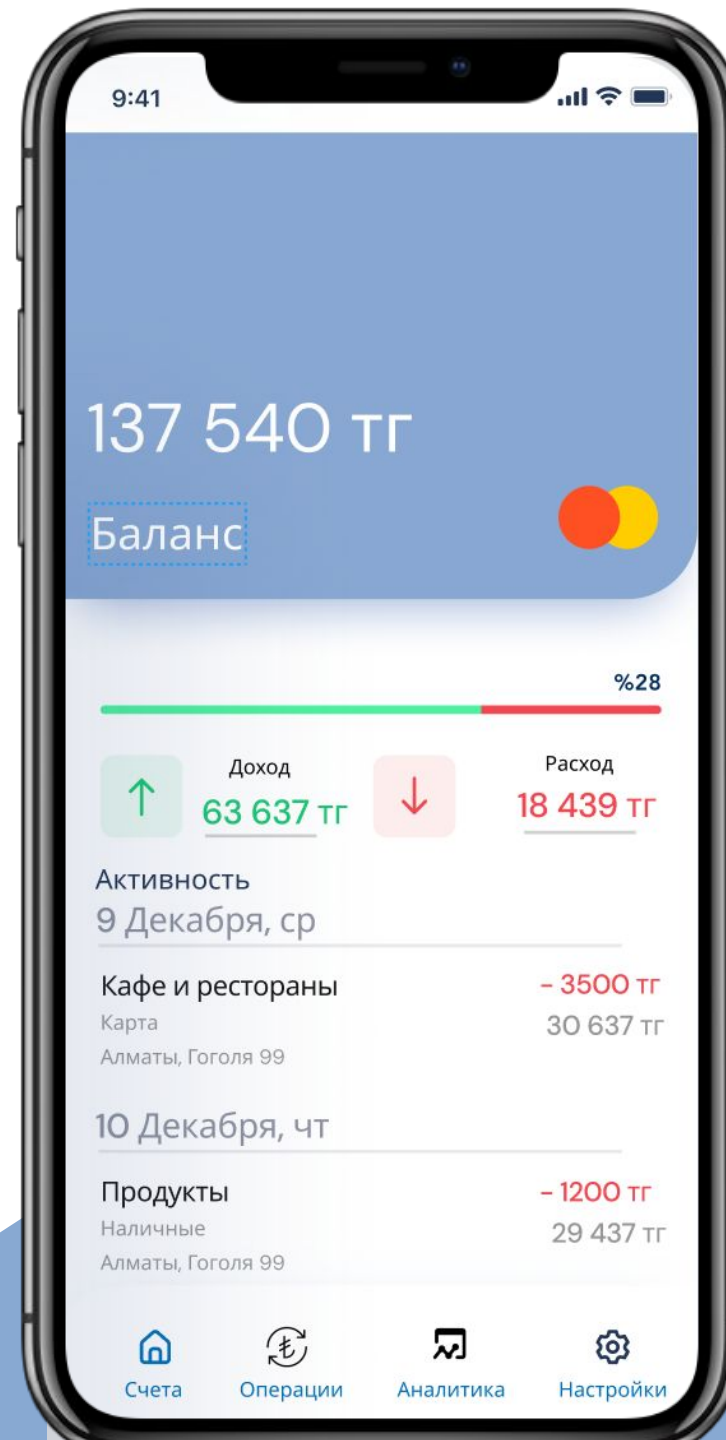

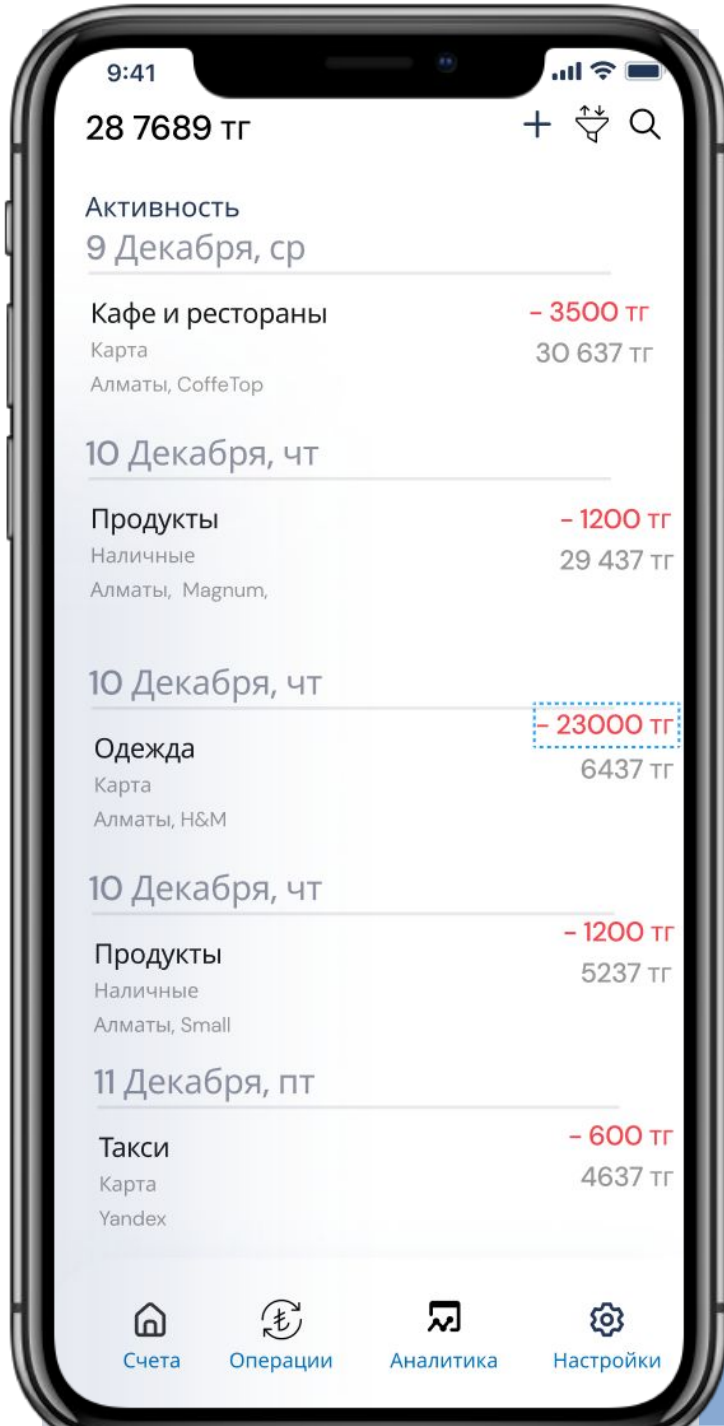

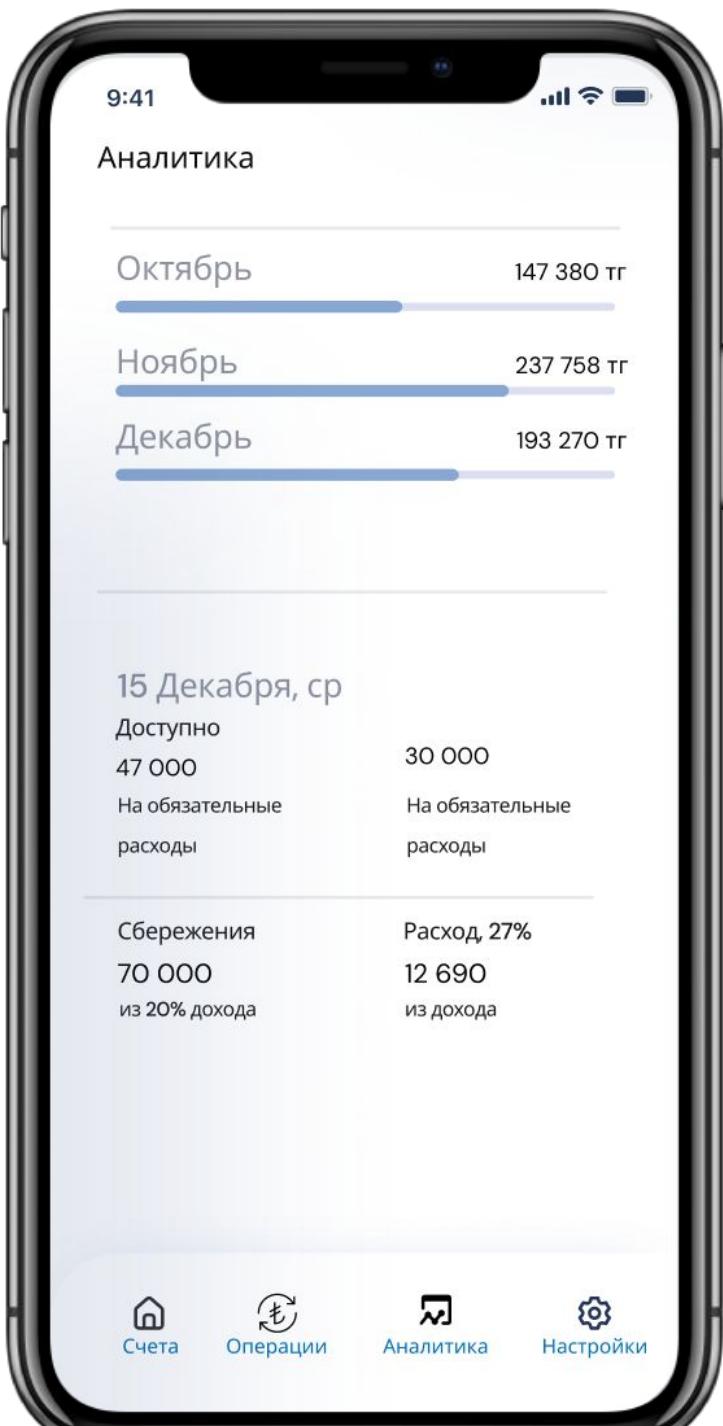

- Import your account and integrate your bank.
- Overview of all accounts
- Output of all transactions
- Comparison of the period - in which direction is the development of our budget
- Make up payment plans budget and goals

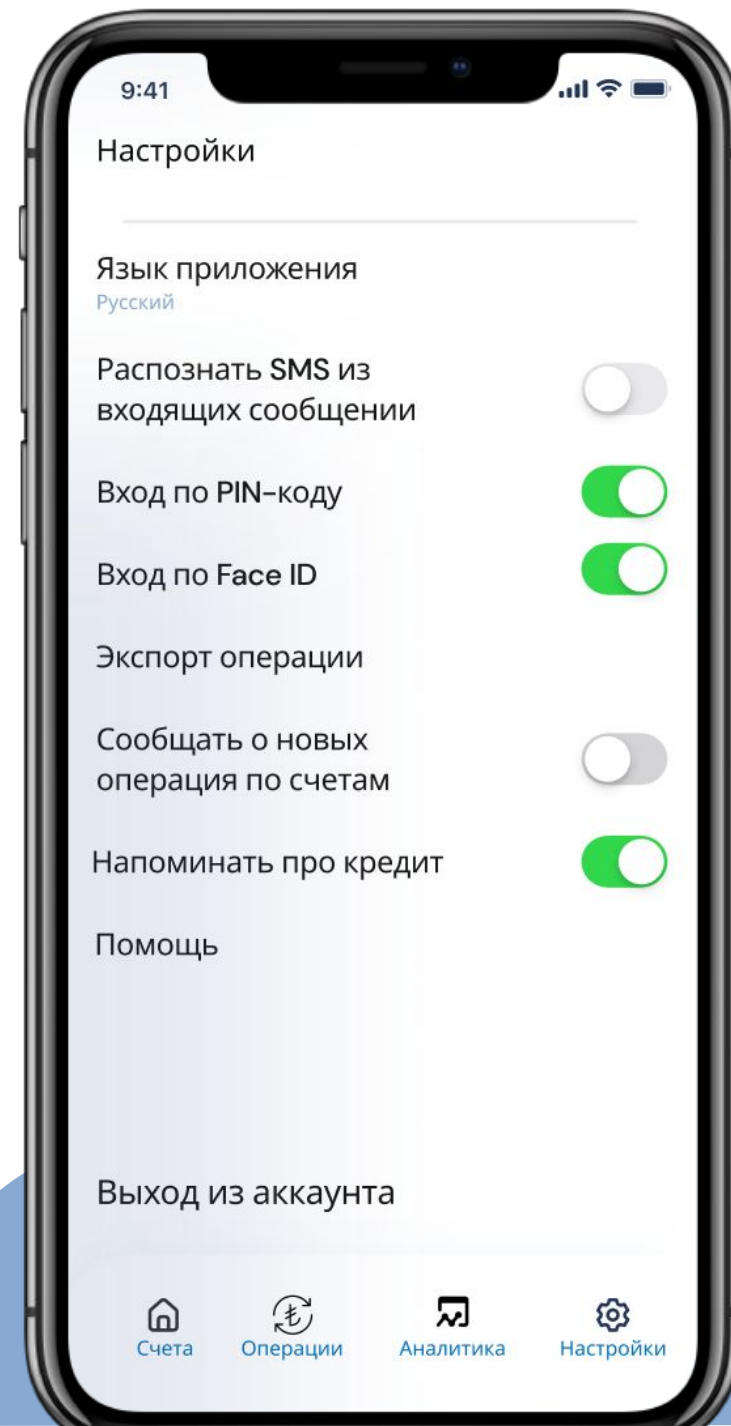

Isn't it convenient when all your accounts are in one place?

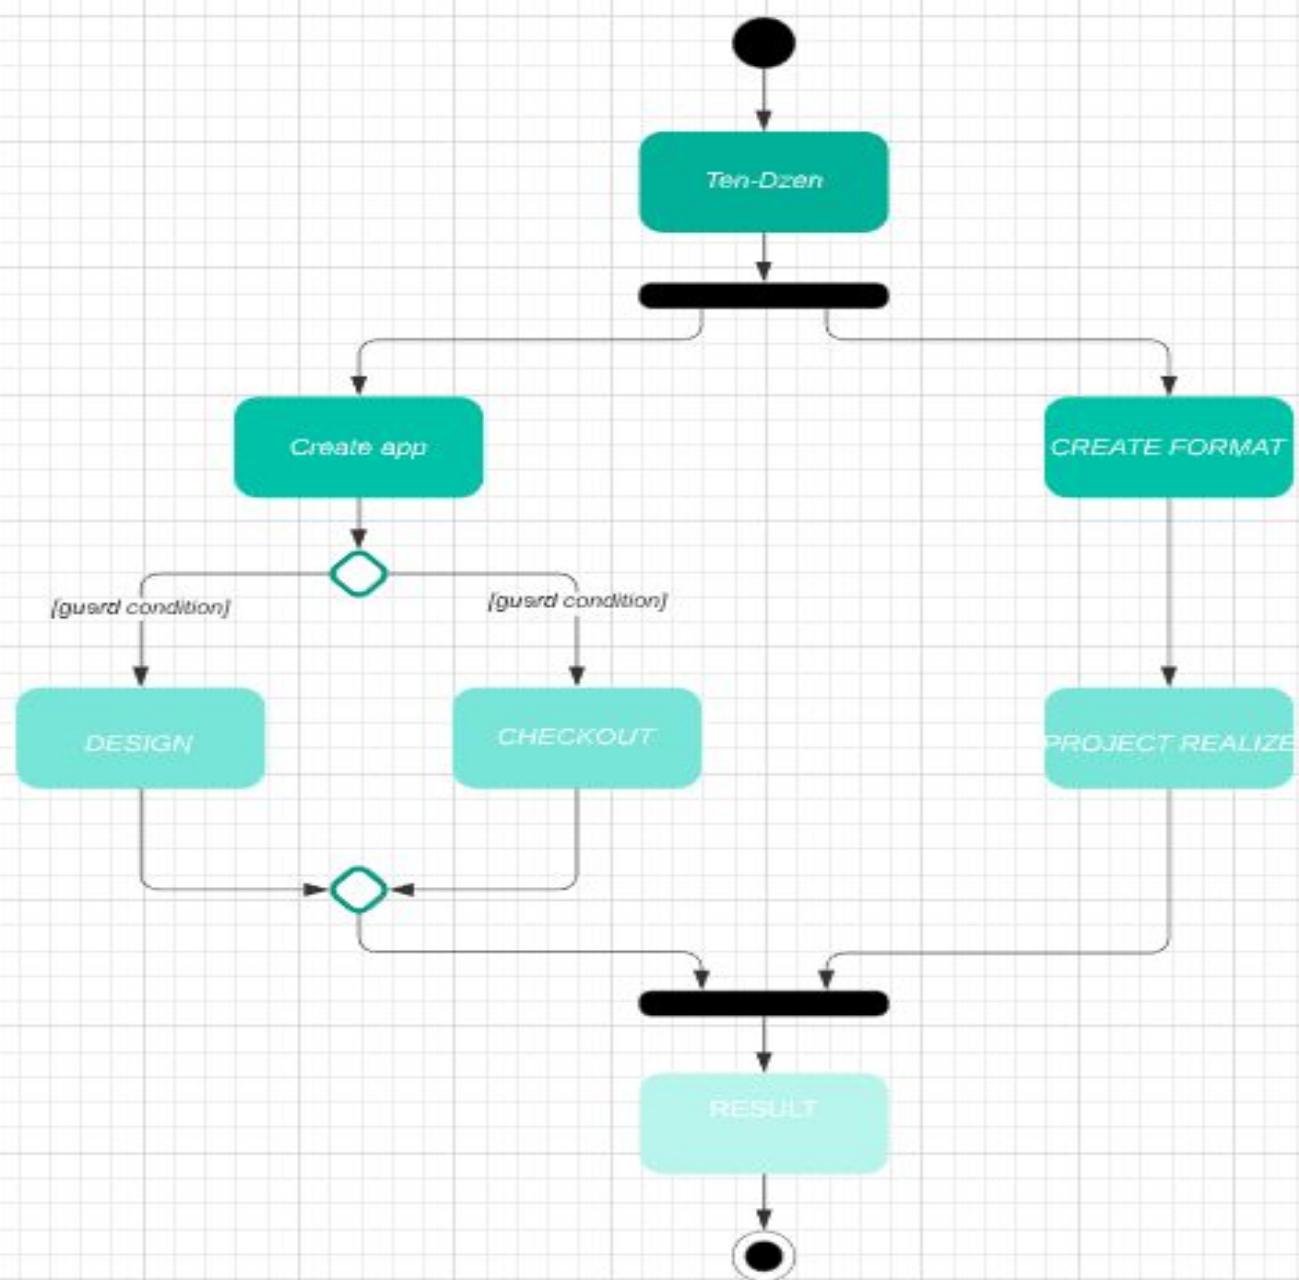

According to our observation, our service is not only for those who want to save money, who do not have enough money, and so on. For the most part, our application is for those who want to better control their finances.
